Justin, know that you are in the field, but you should be receiving something comparable today, if you haven't already. At this point, I think that we should have all of the AK Steel canister data. If not, please let me know.

Ed and I will coordinate a transmittal of the final reports to Bob Hodanbosi at Ohio EPA. Thank you!

These files are the files our data coordinator was sending to Justin today, not sure what time. She has to make sure they are complete, and ensure proper archiving for the entire e-data file set from the analyst, in this case, Wayne.

Hi George,

Justin received the final report for the May 23-24th campaign yesterday afternoon...thank you!

Do you know when we can expect the final report for the May 7-8th campaign? Today would be preferable because ATSDR scheduled a meeting with us to discuss the data for tomorrow morning. Thanks!

We could issue the draft report for the May 23-24 data, however it has been reviewed and should be final tomorrow.

Hi George,

Hope you had a great weekend!

Any update on if you'll be able to provide a comparable draft report for the samples that were collected May 23rd and 24th? Do you have an estimate for when the final reports will be completed? Thank you!

Thank you, George. This is great! We will send this to Ohio EPA now, with the appropriate caveats.

Will you be able to provide something comparable for the samples that were collected May 23rd and 24th? If so, please let us know your turnaround time. Again, this is much appreciated!
